Objective:

Look for completing my Master's degree in electrical engineering at Stuttgart university where I can improve my knowledge and skills and get experience.

Education:

B.S. in Electrical Engineering. Lebanese International University GPA: 3.21/4	2017/2020 Rayak-Bekaa-Lebanon
Terminal Life Science. Al Hadi school Grade: 15/20	2016 / 2017 Baalbek-Bekaa-Lebanon
Brevet Al Hassan School	2013 / 2014 Baalbek-Bekaa-Lebanon

Electrical skills:

- Arduino Programing(C+)
- NetBeans (JAVA)
- Microsoft Office (Word/Excel/PowerPoint)
- PLC Programming (PicoSoft)
- Proteus/LTspice/MATLab/Pspice
- AutoCAD

SKILLS AND COMPETENCIES:

- Good communication and listening skills.
- Ability to operate well under pressure, independently as well as a member of a team.
- Ability to deliver effective results and meet tight deadlines.
- Ability to plan, organize and coordinate.
- Ability to prepare agenda and follow up on the action to be taken.
- Ability to motivate and empower others to reach organizational goals.
- Problem-solving oriented skills.

- Competent keyboard skills to produce accurate and well-presented reports.
- Ability to deal motivate different levels of individuals.
- Receptive and positive attitude.

Personal Profile:

- Following up with cases on the social level.
- Doing the referrals needed.
- Doing the focus group with the child protection committees.
- Preparing & Giving an awareness session for children's and care-givers.
- coordinating with the local and international association.

Involvement of children, youth, parents and caregivers:

- Ensure that the activities are done in a safe, clean, hazard free.
- Ensure that all beneficiaries have the opportunity to participate in the Electrical Activities in a non-discriminatory as well as age and gender sensitive and appropriate way.
- Encourage participants to be actively involved.
- Ensure that the children feel safe, comfortable and respected.
- Ensure that all children and caregivers are aware of any accountability /complaint Mechanisms.
- Ensure that parents/caregivers get frequent feedback about their child's participation and take consent form from parents before attendance activities.

Ensure that child protection policies are respect in all activities.

Result: children, community facilitators, parents and others take holders are active participants.

Monitoring activities:

- Ensure the safety of all Learning Spaces.
- In collaboration with staff, monitors the implementation of activities in the field.
- Reports on the alignment of the implemented activities with the child safety policy.
- I will make all efforts possible to ensure that the targeted number is reached while supporting all colleagues.

Mobilizing and facilitating:

- Develops and maintains good relationships.
- Ensures, promotes and facilitates that the principles of child protection and child Participation are integrated into all project activities.
- Coordinates and follows up to ensure optimal participation of the technical officers especially related to competency and capacity building.

Languages:

- Arabic (first language)
- German (average speaking, writing and reading)
- English (good speaking, great writing and reading)

Honors:

- Dean's list at Lebanese International University, on Bachelor of Electrical Engineering (2019/2020)
