EXPERIENCE

CME Offshore, Full-Stack Software Engineer

DEC 2018 - PRESENT

Working remotely with Subway's DEV team, based in the USA, to design software solutions for Menu Management. During this period I worked on 2 .Net Projects using C# Html, JavaScript, CSS My job was to:

- Gather requirements, analyses them, estimate the work needed ,deliver and test clean, error free and reusable code
 - Change code whether to fix bugs or improve performance and readability
 - Apply SOLID principles and design patterns for better code performance, decoupling and readability
 - Document code changes and be part of the technical planning
- During this period I also took the time to learn Angular to widen my front-end knowledge
