

SAM DAHER

Head of Engineering

PERSONAL STATEMENT

Passionate about everything technical, design and interface.

For over 10 years, my career has been filled with diverse design management & construction experiences in mega projects, providing me the opportunity to achieve engineering solutions that are high quality, safe & innovative, to program and commercially advantageous.

Today I serve as head of department who demonstrated widespread knowledge in execution of civil works, infrastructure, buildings & highways, liaising with different disciplines & stakeholders.
